Administrative Office opened in Downtown Greeley

Greeley, Colorado, November 21, 2006: Naranjo Civil Constructors, Inc. (Naranjo Civil) has acquired and renovated the office building at 1020 9th Avenue in Downtown Greeley, Colorado. This building was previously occupied by the American Cancer Society.

Naranjo Civil will relocate their Executive Management team as well as their Human Resources and Engineering Divisions to the new facility to accommodate the increase in office and management personnel.

All phone and fax numbers shall remain the same with little to no interruption. The mailing address will also remain the same as the shop/yard facility is still the primary business address.

Naranjo Civil Constructors, Inc. has taken the growth and success of the past few years and built a team of people and resources more ready to embark upon an expanded mission. Naranjo Civil has built a diversified project portfolio based on technically complex structural concrete, flatwork concrete, drainageway construction, stormwater construction, road reconstruction, irrigation, and minor utility projects.

Naranjo Civil focuses on serving the Public sector with a straight-forward, problem-solving approach to civil construction. As a General Contractor, or a specialty subcontractor, Naranjo Civil aims to provide unmatched productivity, best-in-class quality construction, and a relentless commitment to providing an elite level of customer service.
